(ABLGI – 100% owned); (4) First Cagayan Leisure and Resort Corporation (FCLRC – 69.68% owned) and (5) Blue Chip Gaming and Leisure Corporation (BCGLC – 70% owned).

Based on PFRS 3, Business Combination, the Company has not amortized the goodwill on its investments in its subsidiaries. Instead, PFRS 3 requires for an annual test for goodwill impairment. On the basis of the test for impairment of goodwill, there is no need to provide for allowance for impairment for the third quarter of 2011.

The Company's total operating expenses amounted to ₱7.4 million and ₱2.5 million during the third quarter of 2011 and 2010, respectively while posting a year-to-date operating expenses of ₱20.4 million as of September 30, 2011 as compared to ₱6.8 million for the same period last year. The increases of ₱5.0 million during the third quarter of 2011 and ₱13.5 million as of September 30, 2011 are mainly attributable to the hiring of several management consultants, and cost of training given to key management personnel. Due to the rapid expansion of the Group's operations, management has determined the need to provide for effective tools for a more efficient and competent organization.

Starting 2009, the Company discontinued recording its 30% share in losses from Binondo Leisure Resources, Inc. (BLRI) as its investment balance has already been consumed.

On May 24, 2011, the Board of Directors (BOD) of the Company approved resolutions for the following:

(a) for the adoption of a Management Incentive Stock Option Plan to be administered and implemented by a Committee composed of five members, two of whom must be independent directors, and allocating five percent (5%) of the authorized capital stock for the stock option plan which will be made available to the members of the Board of Directors, except independent directors, executive officers occupying the positions of President, Vice-President and Assistant Vice-President of the Corporation and its subsidiaries. The purchase price for the shares under the stock option plan shall be the 45 trading day moving average of the market price or such lower price as may be allowed by the Securities Regulation Code and the Philippine Stock Exchange minus any discount that may be approved by the Committee which shall not exceed twenty percent (20%) of the purchase price;

(b) authorizing the acquisition of Twenty Six Thousand Two Hundred Fifty (26,250) shares of Blue Chip Gaming and Leisure Corporation (BCGLC) representing seventy percent (70%) of its outstanding capital stock. The corporation operates a Slot Arcade at the King's Royale Hotel and Leisure Park, Olongapo-Gapan Road, Macabacle, Bacolor, Pampanga under a license issued by the Philippine Amusement and Gaming Corporation (PAGCOR). Thus, the Company's consolidated financial statements include BCGLC's results of operations starting May 2011;

(c) authorizing the increase of the authorized capital stock of its wholly owned subsidiary, ABLGI to Four Hundred Million Pesos (P400,000,000.00) divided into Four Million Shares and authorizing the additional subscription of the Company to Nine Hundred Eighty Seven Thousand Five Hundred (987,500) shares worth Ninety Eight Million Seven Hundred Fifty Thousand Pesos (P98,750,000.00) in the increased authorized capital stock of ABLGI.

During the annual stockholder's meeting held last July 29, 2011, the following were approved and ratified by the majority of stockholders present in person or by proxy:

(a) the Management Stock Option Plan, acquisition of BCGLC and increase of authorized capital stock of ABLGI;

(b) the issuance of One Hundred Fifty Million Shares (150,000,000) from the unissued capital stock of the Company to the following: (1) Grandshares, Inc. at 100,000,000 shares, (2) Pacific Online System Corporation at 25,000,000 shares and (3) Vantage Equities, Inc. at 25,000,000 was also approved as well as the waiver of the requirement for the Corporation to conduct a rights or public offering of the subscribed shares for related party transactions as the private placement of the subscribers to the One Hundred Fifty Million Shares (150,000,000);

(c) the resolution authorizing the Corporation to act as surety of its wholly owned subsidiary, ABLGI, for an Omnibus Loan and Security Agreement (OLSA) to be executed among ABLGI, as borrower and Banco De Oro Unibank, Inc. as Lender, and Banco De Oro Unibank, Inc.-Trust and Investments Group as Collateral Trustee, to obtain a loan in the aggregate amount of up to Two Billion Pesos and the delegation of authority to the Board of Directors to approve the terms and conditions of Omnibus Loan and Security Agreement were approved by the majority of stockholders present in person or by proxy during the annual stockholders meeting, as well as the authorization of the President to negotiate the terms and conditions of the OLSA subject to the approval by the Board, and to sign, execute, and deliver the OLSA, the Notes, and such other document or agreement contemplated under the OLSA;

(d) the approval of the declaration of cash dividend, equivalent to P 0.03 per share payable to all common stockholders of record as of September 28, 2011 to be paid on October 21, 2011, another cash dividend of P 0.025 per share payable to all common stockholders of record as of January 30, 2012 to be paid on February 22, 2012 and another cash dividend of P 0.02 per share payable to all common stockholders of record as of February 29, 2012 to be paid on March 23, 2012.

ABLE Operations
Third Quarter 2011 vs. Third Quarter 2010

On March 31, 1995, ABLE was registered with the Philippine Securities and Exchange Commission (SEC). The primary purpose of ABLE and its subsidiaries is to provide amusement and recreation to the public in such forms as, but not limited to, traditional, electronic, pulltabs and rapid bingo games. Doing business as Bingo Bonanza Corporation, ABLE has established itself as the pioneer in professional bingo gaming in the Philippines.

Revenues

ABLE generated total sales of ₱905.1 million for the third quarter of 2011, a ₱36.2 million or 4.2% improvement from last year's third quarter sales of ₱868.9 million. The increase is attributable to the increase in sales of Electronic Bingo (EBingo) by ₱80.8 million or 38.4% which sufficiently compensated for the decrease in sales of the following: Traditional Bingo by ₱34.6 million or 6.5%; Rapid Bingo by ₱5.1 million or 4.5%; Pull Tabs by ₱2.4 million or 46.7% and Instant Charity Bingo by ₱2.6 million or 61.7%.

The traditional bingo continues to be ABLE's principal product-line with a contribution of 55.4% to total sales in the third quarter of 2011. Sales for the third quarter of 2011 was ₱501.1 million, a decline of ₱34.6 million or 6.5% from ₱535.7 million during the same period in 2010.

E-bingo total sales for the third quarter of 2011 amounted to ₱ 291.5 million, an increase of ₱80.8 million or 38.4% from ₱210.7 million sales during the same period in 2010. Higher sales were generated because of the increase in the number of E-bingo machines as well as an increase in sales generated per machine. As of September 30, 2011, there were a total of 2,630 E-bingo machines in 49 bingo parlors as compared to 1,911 E-bingo machines in 37 bingo parlors in the third quarter of 2010.

During the third quarter of 2011, sales from Rapid bingo contributed ₱108.1 million or 11.9% to total sales as compared to ₱113.2 million or 13.0% contribution to total sales for the same period last year. There was a decrease in sales amounting to ₱5.1 miillion or 4.5% from the third quarter of 2010. By the end of September 30, 2011, there were a total of 77 Rapid bingo terminals in 61 bingo parlors as compared to 76 Rapid bingo terminals in 62 bingo parlors for the third quarter of last year.

During the third quarter of 2011, Pull Tabs contributed ₱2.7 million to total sales, as compared to ₱ 5.1 million for the same period last year.

Sales from the ICBG2 scratch cards contributed ₱1.6 million to total sales during the third quarter of 2011 as compared to ₱4.2 million for the same period last year.

Expenses

ABLE's consolidated costs and operating expenses for the third quarter of 2011 of ₱577.9 million decreased by ₱9.3 million or 1.6% from ₱587.2 million in 2010. The decrease is mainly attributable to the following: (1)Cards & Supplies of ₱1.5 million or 12.8% due to the decrease in sales of Traditional Bingo and (2) "Others-Net" of ₱3.2 million or 21.0% due to management's continuous implementation of ABLE's cost reduction program. On the other hand, these decreases were partially offset by the following increases mainly due to the opening of several bingo parlors: (1)Employee's Benefit ₱3.0 million or 14.6%; (2) Contracted Services of ₱3.8 million or 16.6%; (3) Depreciation of ₱2.7 million or 21.8% and (4) Taxes and Licenses of ₱0.3 million or 5.5%. Interest and others – net expense for the quarter amounted to ₱ 3.3 million for a ₱1.0 million or 22.5% decrease from last year's ₱4.3 million mainly due to the decrease in loan interest payments resulting from substantial payment of loan principal.

Net Income

ABLE posted a consolidated net income (net of minority share) of ₱24.1 million for the third quarter of 2011, a ₱0.04 million or 0.2% decrease from the ₱24.2 million net income for the same period in 2010. The slight decrease in net income is due to the increase in franchise and regulatory fees resulting from the increase in gross revenues.

FCLRC Operations
Third Quarter 2011 vs. Third Quarter of 2010

The Cagayan Economic Zone Authority (CEZA), mandated by law to manage Cagayan Special Economic Zone and Free Port (CSEZFP), has authorized FCLRC to license, regulate and supervise the operations of registered online gaming enterprise in CSEZFP. FCLRC, on behalf of CEZA, can issue two types of licenses: (1) interactive gaming licenses which cover all types of online gaming including casinos, lotteries, bingo, sportsbooks; and (2) restrictive licenses which limit the offerings to sports betting only. As the master licensor, FCLRC is entitled to half of the gaming levy imposed by CEZA on the gaming operators in the CSEZFP.

FCLRC generated ₱79.3 million gross revenues for the third quarter of 2011, representing a ₱17.1 million or 27.5% increase from last year's third quarter revenues of ₱62.2 million. The improvement in revenues is mainly due to the increase in the number of operational locators – 49 for this year as against 39 last year as well as an increase in the revenues of operating locators. Hosting fees from restrictive and interactive gaming locators contributed ₱62.9 million or 79.3% of total revenues, while license application and renewal fees accounted for ₱16.5 million or 20.7%. Hosting fees of ₱ 54.3 million during the third quarter of 2010 increased by ₱8.6 million or 15.7%, while license application fees increased by ₱8.6 million or 108.3% from ₱ 7.9 million during the same period.

FCLRC posted a net income of ₱ 44.6 million for the third quarter of 2011, a ₱8.6 million or 24.0% increase versus last year's ₱35.9 million. Total cost and operating expenses of ₱ 18.9 million decreased by ₱ 2.4 million or 14.4% from last year's figure of ₱ 16.5 million. The decrease in cost and expenses is primarily due to the company's cost saving measures and overall financial prudence or as stated in the following: (1) Administrative salaries and benefits of ₱ 6.2 million or 71.9%; (2) Rental of ₱ 0.3 million or 7.8%; (3) Communication & Utilities of ₱0.2 million or 7.6% and (4) Taxes and Licenses of ₱0.03 million or 66.3%. These decreases were partly offset by the following increases: (1) Professional Fees of ₱0.6 million or 24.5% attributable to the hiring of several consultants; (2) Depreciation of ₱ 3.0 million or 88.0% owing to the accelerated depreciation of the airstrip and acquisition of transportation equipment and (3)"Others" expenses of ₱5.4 million or 90.1% attributable to the enhanced marketing campaign to attract more locators. The resulting net income in the "Other Income/(Expense) account" of ₱ 16.8 million or a decrease of ₱ 1.8

million or 9.9% from last year's resulting net income of ₱ 18.7 million was mainly due to the decline in the other income derived from the rental of gaming facility coupled with a decrease in the equity in net earnings of First Cagayan Converge Data Center, Inc. (FCCDC) partially offset by a decrease in interest expense due to its partial settlement of financial obligation to CEZA.

LRLDI Operations
Third Quarter 2011 vs. Third Quarter of 2010

In 2010, LRLDI has completed its construction of the CyberPark building intended for lease. Accordingly in the same year, LRLDI entered into various lease agreements as lessor, with lease terms ranging from monthly to five (5) years.

LRLDI is also committed in supporting the development of Cagayan Special Economic Zone and Free Port (CSEZFP). In executing an agreement with Cagayan Premium Ventures Development Corporation (CPVDC) and Cagayan Land Property Development Corporation (CLPDC), LRLDI has established its support by investing funds into the Lal-Lo Airport Project , Cagayan Economic Zone and Freeport (CEZFP) International Airport Project and other facilities within the CSEZFP. These projects aim to improve and further advance CSEZFP into a self-sustaining industrial zone.

During the third quarter of 2011, LRLDI posted a net income of ₱0.002 million. Total rental income amounted to ₱4.3 million while total operating expenses amounted to ₱ 1.9 million for the third quarter of 2011. To facilitate the Company's commitment to the further development of CSEZFP, the management decided to improve its operations to provide a more efficient service. Accordingly, the total operating expenses increased by ₱1.8 million, from ₱ 0.07 million as of the third quarter of 2010, as follows: (1) Employees Benefit of ₱0.009 million; (2) Depreciation of ₱1.5 million due to the accelerated amortization of completed projects and (3) "Others" of ₱0.3 million.

ABLGI Operations
Third Quarter 2011

As of September 30, 2011, ABLGI has not started commercial operations. The Company, however, has incurred pre-operating expenses amounting to ₱68.5 million in the third quarter of 2011. These expenses are mainly attributable to the rental of land in which construction of the building is on-going, as well as cost of hiring of several consultants to facilitate the outfitting and furnishing of the casino in line with the Company's objective to create a world class gaming facility.

BCGLC Operations
Third Quarter 2011

BCGLC generated gross revenues from slot machines totaling ₱8.8 million during the third quarter of 2011. Total operating expenses amounted to ₱ 7.8 million. It contributed ₱0.07 million to the total net income of the Group.

LRWC Consolidated Net Income

As a result of the foregoing developments, LRWC posted a consolidated net loss (net of minority share) of ₱18.3 million for the third quarter of 2011, as compared to ₱46.7 million consolidated net income of the same period last year. The decrease is mainly due to the pre-operating expenses incurred by ABLGI. Excluding the said expenses, the consolidated net income of LRWC would have amounted to ₱50.3 million.

ABLE Operations
YTD - September 30, 2011 vs. September 30, 2010

Revenues

ABLE's total year-to-date sales as of the third quarter of 2011 amounted to ₱2,673.2 million, a slight decrease of ₱5.9 million or 0.2% from the ₱2,679.1 million total sales for the same period last year. The decrease in sales is mainly due to the decrease in sales generated from the following: (1) Traditional Bingo of ₱128.4 million or 7.8%; (2) Rapid Bingo of ₱22.7 million or 6.4%; (3)Pull Tabs of ₱5.4 million or 34.3% and (4) Instant Charity Bingo of ₱6.8 million or 48.6%. On the other hand, there was an increase in sales of Electronic Bingo of ₱157.4 million or 24.6%, although it did not outweigh the overall decrease in sales, it reduced the effect of the decreases in the sales of the other products to a minimum.

The traditional bingo games remain the company's principal product-line with a September 2011 year-to-date sales of ₱1,526.1 million or 57.1% contribution to total sales.

The sales of E-bingo operations as of September 30, 2011 at ₱796.8 million or 29.8% contribution to sales continue to grow from the time it was first launched in mid of 2002 with twenty (20) machines. The decrease in expenses are mainly attributable to: (1) Cards and Supplies of ₱2.2 million or 6.4% due to the decrease in sales of Traditional Bingo and (2) "Others-net" Expenses of ₱12.0 million or 27.2% owing to management's continuous implementation of ABLE's cost reduction program. Nevertheless, there were increases in the operating expenses mainly attributable to the opening of several bingo parlors as follows: (1) Rental of ₱7.8 million or 5.4%; (2) Employees Benefit of ₱13.8 million or 23.5%; (3) Contracted Services of ₱10.0 million or 15.2%; (4) Depreciation of ₱5.9 million or 17.1% and (5) Taxes and licenses of ₱1.8 million or 11.9%. The resulting decrease in the "Other Income/Charges" account of ₱7.4 million or 47.8% is mainly due to the gain on sale of 2,050,000 LRWC shares held as temporary investments as well as reduced loan interest payments due to payment of loan principal.

Net Income

As of September 30, 2011, ABLE posted a net income (net of minority share) of ₱69.2 million (inclusive of ₱4.4 million gain on sale of LRWC shares which reverts to additional paid-in capital upon consolidation) as compared to ₱95.1 million net income for the same period last year. The decline is mainly due to decrease in revenues partially offset by a decrease in costs and operating expenses.

FCLRC Operations
YTD - September 30, 2011 vs. September 30, 2010

FCLRC's gross revenues as of the period ending September 30, 2011 was ₱233.3 million, an improvement of ₱8.0 million or 3.5% from last year's figures of ₱225.4 million. FCLRC posted a net income of ₱ 112.7 million for the third quarter of 2011, a ₱26.9 million or 31.3% increase versus last year's ₱85.9 million. Total cost and operating expenses of ₱ 59.9 million decreased by ₱ 8.5 million or 12.4% from last year's figure of ₱ 68.4 million. The Company's cost saving measures and overall financial prudence contributed mainly to the decrease of the following: (1) Administrative salaries and benefits of ₱ 10.5 million or 38.2%; (2) Rental of ₱0.8 million or 7.2%; (3) Communication and utilities ₱ 0.4 million or 6.5%; (4) Taxes and Licenses of ₱0.03 million or 10.9% and (5) "Others" Expenses of ₱ 2.4 million or 61.8% partially offset by an increase in Depreciation of ₱ 5.4 million or 53.5% mainly due to the accelerated depreciation of the airstrip as well as the acquisition of transportation equipment. The resulting increase in the net income in the "Other Income/(Expense) account" of ₱ 8.3 million or 33.6% was mainly due to the increase of other income from the rental of gaming facility as well as a decrease in interest expense due to the partial settlement of financial obligation to CEZA.

LRLDI Operations
YTD – September 30, 2011 vs. September 30, 2010

Financial Condition – September 30, 2011 vs. December 31, 2010

Mitigating strategies and procedures are also devised to address the risks that inevitably occur so as not to affect the Company's operations and forecasted results. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee performs oversight role over financial management functions, specifically in the areas of managing credit, liquidity, market and other risks of the Company. The Audit Committee directly interfaces with the internal audit function, which undertakes reviews of risk management controls and procedures and ensures the integrity of internal control activities, which affect the financial management system of the Company. The results of procedures performed by Internal Audit are reported to the Audit Committee. On the other hand, the Audit Committee reports all issues identified relating to the financial reporting of the Company to the BOD on a regular basis.

Credit Risk

Credit risk represents the risk of loss the Group would incur if customers and counterparties fail to perform their contractual obligations.

Financial information on the Group's maximum exposure to credit risk as of September 30, 2011 and December 31, 2010, without considering the effects of collaterals and other risk mitigation techniques, is presented below.

**See accompanying schedules for details*

Cash in Bank
The management evaluates the financial condition of the banking industry and deposits cash with reputable banks only.

Receivables
Majority of the Group's credit risk on receivables is attributed to its internet gaming licensing activities influenced mainly by the individual characteristics of each customer and noninterest-bearing advances made to entities with similar operations. The demographics of the Group's customer base, including the default risk of the industry and regions in which customers operate, has an influence on credit risk.

The Executive Committee has established a credit policy under which each new advanced amount requested by customer/counterparties within the same gaming industry is analyzed individually for creditworthiness before standard credit terms and conditions are granted. The Group's review includes the requirements of updated credit application documents, credit verifications through the use of no negative record requests and list of blacklisted accounts, and analyses of financial performance to ensure credit capacity. The status of each account is first checked before advances are approved.

Most of the Group's customers have been transacting with the Group for several years, and losses have occurred from time to time. Results of credit reviews are grouped and summarized according to credit characteristics, such as aging profiles and credit violations.

The Group establishes an allowance for impairment losses that represents its estimate of incurred losses in respect of receivables and advances. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

As of reporting date, there were no significant concentrations of credit risk.

Based on historical default rates, the Group believes that no impairment allowance is necessary in respect of receivables not past due or past due by up to 60 days. Significant portion of advances to RHLRC was collected in 2010 and subsequent collection was also made on the advances in 2011, while its advances to Beau Geste were collected on March 4, 2010. No additional impairment loss was recognized as of September 30, 2011.

Venue Rental Deposits
The management prefers well known business establishments in the selection of location for bingo operations to ensure profitable operations and recovery of the venue rental deposits upon termination of the lease agreements.

Cash and Performance Bonds
The Group's exposure to credit risk is negligible as PAGCOR has sufficient funds to settle cash and performance bonds upon the expiration of the Grants.

Advances to Non-related Parties
The Group exposure to credit risk in advances to non-related parties is through financing the operations of non-related parties that have viable operations and likewise engaged in gaming amusement activities on which the Group intends to have future economic benefits from its advances to non-related parties through future acquisition and investment of these non-related parties.

Due from Related Parties
The Group limits its exposure to credit risk by only financing the operations of related parties that have viable operations and likewise engaged in gaming amusement activities.

Liquidity Risk

Liquidity risk pertains to the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

The Group manages liquidity risk by forecasting projected cash flows and maintaining a balance between continuity of funding and flexibility. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements. Management closely monitors the Group's future and contingent obligations and sets up required cash reserves as necessary in accordance with internal requirements.

In addition, the Group has an omnibus line of credit with a number of Philippine banks consisting of commitments for short term loans, letters of credit and documents against acceptances/documents against payment (DA/DP) facilities trust receipts. All facilities under the omnibus line bear interest at floating rates consisting of a margin over current Philippine treasury rates.

Market Risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates, and other market prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is subject to various market risks, including risks from changes in prices, interest rates, currency exchange rates and equity price risk.

Change in Prices
The risk from price changes relates to the Group's ability to recover higher selling costs through price increases, which may be limited due to the regulated environment that exists in the Philippine gaming market and the willingness of players to purchase the same volume of bingo cards at higher prices. The Group's most significant exposure arises from increase in rental rates of leased premises in commercial establishments.

The Group minimizes its exposure to risks in changes in rental rates by entering into contracts with lessors with duration ranging from six months to one year with fixed rent commitment for the contract duration.

Interest Rate Risk

The Group's exposure to the risk for changes in market interest rate relates primarily to its short-term and long-term debt obligations with variable interest rates. The Group's interest rate risk exposure relates to the 90 day MART1 and

LIBOR benchmark plus a designated bank spread. The Treasury Department, through its competencies of managing short-term and long-term debt obligations, transacts with creditors to ensure the most advantageous terms and to reduce exposure to risk of changes in market interest rate.

Foreign Currency Risk

The Group is exposed to foreign currency risk on purchases that are denominated in currencies other than the Philippine peso, mostly in U.S. dollar. In respect of monetary assets and liabilities held in currencies other that the Philippine peso, the Group ensures that its exposure is kept to an acceptable level, by buying foreign currencies at spot rates where necessary to address short-term imbalances.

Fair Values

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

Cash
The carrying amount approximates its fair value since it can be readily withdrawn and used for operations.

Investment in other shares of stocks
The fair value of unquoted other shares of stocks approximates its cost, because there are no recent transactions involving these stocks.

Receivables/Due from Related Parties/Advances to Related and Non-related Parties /Venue Rental Deposits/Cash and Performance Bonds /Trade and Other Payables/Due to Related Parties/Rent Deposit
The carrying amounts of receivables, due from related parties, trade and other payables and due to a related party approximate their fair values due to the relatively short-term nature of these financial instruments. The carrying amounts of venue rental deposits, cash and performance bonds, advances to related and non-related parties and rent deposit approximate their fair values, because the effective interest rate used for discounting approximates the current market rate of interest for similar transactions.

Loans Payable
Loans are reported at their present values, which approximates the cash amounts that would fully satisfy the obligations as of reporting date. The carrying amount approximates fair value since the interest rates are repriced frequently. These are classified as current liabilities when they become payable within a year.

Obligations Under Finance Lease
Obligations under finance lease are reported at their present values, which approximates the cash amounts that would fully satisfy the obligations as of reporting date. These are classified as current liabilities when they become payable within a year.

Capital Management

The Group's objectives when managing capital are to increase the value of shareholders' investment and maintain high growth by applying free cash flows to selective investments. The Group sets strategies with the objective of establishing a versatile and resourceful financial management and capital structure.

The BOD monitors the return on capital, which the Group defines as net operating income divided by total shareholders' equity. The BOD also monitors the level of dividends to shareholders.

The BOD seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The Group defines capital as equity, which includes capital stock and retained earnings. There were no changes in the Group's approach to capital management as of the third quarter of 2011. The Group is not subject to externally-imposed capital requirements.
